

## Says

What have we heard them say? What can we imagine them saying?

I'm not sure about my soil condition

where should i start

Govnment can help them by providing cheap seeds

People are

committed to

clearly

adopting

crops

Who else world

Need help in Proper Weeding

will feed the

Agriculture crop production

obtaining the crop production for agriculture

Protests most usual way

taking some steps to

Government improve crop production

significant slump or recession

fears that crops

will experience a

weeding is overwhelming We have low but nonetheless high expenses.

**Thinks** 

Funds from

Government

must provide as

the populace as

possible, even

if it costs them

much food for

poor

What are their wants, needs, hopes, and dreams?

What other thoughts might influence their behavior?

Diversification

pays off

Despite having

acres of land,

you still can't

find qualified

people

Not being given Priorities

low water supply

Overcast with Unexpected Rain or No Rain at All

## Does

What behavior have we observed? What can we imagine them doing?

Students

knowledge

agriculture

and using it in

getting

**Feels** 

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?
